Insulin Access at CPCO

**Insured**

- Can bill for insulin covered by patient's insurance. May put up to $20 per Rx per month on account if patient is unable to pay full co-pay at time of dispensing.
  - If the co-pay remains unaffordable and the patient has Medicare Part D, we will screen them for eligibility for Medicare Extra Help and assist them in applying if applicable.
  - If co-pays remain unaffordable, we will try to fill donated insulin as able (supply is highly variable and not reliable)

**Uninsured**

- US Resident with required documentation
  - CPCO can provide Humulin (N, R, and 70/30), Humalog, and Tresiba VIALS to patients consistently.
- Not a US Resident or lacking required documentation
  - We will try to fill donated insulin as able (supply is highly variable and not reliable)

Recommend Relion brand Novolin products at Walmart for $25/vial or $42.88/5 pens for consistent access.

We will fill syringes or pen needles, alcohol swabs, and testing supplies (meter, test strips, and lancets) at no cost for all pharmacy patients on diabetic medication. No prescription is required.

For any questions or to inquire about currently donated insulin options, contact Sarah Jones at 614-227-0301 or at sarahj.charitablepharmacy@gmail.com

Inhaler Access at CPCO

**Insured**
- Can bill for inhalers covered by patient’s insurance. May put up to $20 per Rx per month on account if patient is unable to pay full co-pay at time of dispensing.
- If co-pay is unavailable and the patient has Medicare Part D, we will screen them for eligibility for Medicare Extra Help and assist them in applying if applicable.
- If co-pay is entirely unaffordable, see options for everyone.

**Everyone**
- CPCO currently has a steady supply of Albuterol HFA (60 puffs), Symbicort 80/4.5 (through Feb. 2020), Spiriva Respimat 2.5 mcg/act, and Stiolto Respimat that any patient may receive.
- We can also consistently supply a nebulizer* and albuterol, ipratropium, or ipratropium/albuterol solution to all patients.
- We will also fill donated inhalers as able (supply is highly variable and not reliable).

**Uninsured**
- US Resident with required documentation
- Not a US Resident or lacking documentation
- CPCO can provide Dulera, Proventil, and Asmanex consistently.
- See options for everyone

*must write a prescription for the device.

For any questions or to inquire about currently donated inhaler options, contact Sarah Jones at 614-227-0301 or at sarahj.charitablepharmacy@gmail.com
